Great Styles

WHAT YOU SHOULD BE WEARING RIGHT NOW

By Donald Charles Richardson

It's summer and the living is truly hot. Chances are you've pretty much worn out your lightweight wardrobe, so why not add a couple of new things? Just having some comfortable and very sharp clothes will go a long way toward making you feel good.

T-shirts are always a sure bet. These three are casual and contemporary. Left: Cotton striped T-shirt from Nautica (about \$29.50). Center: JM's Natura T-shirt made of micromodal/cotton/lycra (about \$32.50). Right: Cotton/tencel T-shirt with piping by Cullen (about \$55). Cotton/nylon relaxed pants and shorts by Wearfirst (\$30-44).

Relax, hang out and have a great time in these cotton/nylon cargos from Wearfirst (about \$44).
